EVAAS 101

Overwhelmed by the data? EVAAS can do that! In this session, educators will learn the foundations of EVAAS reports. Participants will explore EVAAS reports, address the standard error in relation to reporting, and apply a layered approach to analyze each report for trends, strengths and areas for improvement. Through simulated and live data, educators will begin utilizing reports to make connections to classroom instruction and student needs.

Questions? Contact: Misty Ewry, mewry@southernohioesc.org

Intended Audience: Building Administrators, Curriculum Directors, Special Education Coordinators, Teachers with EVAAS data, Teacher Leaders
