## LEADING WITH MAP

Which MAP reports and what questions should I be asking?

Leaders, do you find yourselves logging into MAP reports and spending too much time wondering where to start or what to do once you have looked at the data? Attend this session to dive deeply into data and reports specifically designed for leaders. We will level set around the data and growth metrics of MAP and walk through a protocol to analyze the most impactful reports for leadership decision-making. Stop admiring data, and get clear on root cause and next steps! Join us for a day of modeling, practicing, and coaching through your MAP Growth data with an NWEA MAP Growth consultant. You will walk away with resources for effective and efficient data analysis and clear next steps for continuing your MAP Growth journey.

Learning Targets:

- Deepen understanding of the design, purpose, and use of MAP Growth assessments and strategies for achieving greater staff and student engagement
- Identify high impact MAP Growth reports for leaders
- Analyze MAP Growth reports using a data protocol to ask questions and explore root cause
- Determine concrete next steps for your district or school based on your data analysis
